AN UNSOLICITED LETTER

Sacramento, May 15, 1914.

Dear Aunt Christen:

Your letter received. Will say in regard the West Sacramento property. I don't see how anybody can lose on it—especially near the townsite part. The land will certainly never be any cheaper, and it stands a good chance of being a whole lot higher.

The man you spoke over never showed up, but I had just had a ride all over it with friends in a machine, and was surprised to see what they had done with it—and as far as the levee going out—it had a good test this winter. I don't see how anybody can lose on it.

We are all well, and hope you are the same. With love from
JACK AND CARRIE.

NOTE.

One of Tonopah's best known residents, a party of unquestioned standing in your community, wishing to assure herself of the merits of our investment, wrote to her relatives in Sacramento, requesting them to investigate our property and advise her regarding the same, before she would buy. On the strength of the endorsement which this letter brought, we sold her and one of her friends a choice business lot and it is with a fitting spirit of fairness that she permits us to publish this letter, the original of which can be seen at our office.

ENGINEER SAVES
TEN LIVES BY
USING A BRAKE

MINERS ARE THROWN VIOLENTLY TO FLOOR OF CAGE; ISAAC JONES CRUSHED.

EUREKA, Utah, May 19.—Isaac Jones, of Logan, is dead, Leland Whitehead is seriously, if not fatally, hurt and ten other miners are more or less badly injured as the result of a seventy-five-foot drop of the cage in the Eagle and Blue Bell mine here.

The men were going down to the 1,500 level on the first shift and had been lowered in the cage but thirty feet when the clutch broke and the elevator started headlong toward the bottom of the shaft with the miners helpless to save themselves.

Engineer William Gourley noticed the rapid increase in the speed at which the cable was paying out and instantly suspecting that something was wrong, applied the emergency brakes. The cage was brought to a sudden and jarring stop and the 12 occupants were thrown violently to the floor, Jones falling beneath several of the men and suffering bruises and contusions all over his body. Whitehead sustained bruises, a mashed arm and probable internal injuries. He will be taken to a Salt Lake hospital tomorrow.

Jones, who came here but five days ago from Logan, was going to work for the first time when the accident happened. He has a wife and six small children in Logan, and had intended bringing his family here as soon as he was fairly settled in his new work.

It is generally conceded here that but for the prompt action of Engineer Gourley all twelve miners would have been dashed to death at the bottom of the shaft.

The others injured in the fall were Mike Manley, "Doc" Godsey, John Savage, Robert Turner, Bert Dudwick, George Ewing, Sassato Martino, William Kolari, Rodney Reynolds and Peter Larson.

SULPHUR ADVISED
FOR POWDERY SCAB

GROWERS OF SEED POTATOES URGED TO USE THIS TREATMENT AND FORMALDEHYDE.

WASHINGTON, D. C., May 19.—On account of the possibility of infection with powdery scab, the U. S. department of agriculture is now recommending all potato growers to treat their seed potatoes with sulphur. This is made expedient by the fact that infected seed potatoes have been shipped out of Maine where powdery scab now exists. Recent tests justify the department's scientists in recommending a thorough dusting with flowers of sulphur after the potatoes have been cut, as a precaution against the disease, but the treatment is by no means intended to take the place of formaldehyde as a general disinfectant. The department advises the use of both formaldehyde and sulphur.

Before cutting, the potatoes should be soaked for two hours in a solution of one pint of formaldehyde to thirty gallons of water. They should then be allowed to dry quickly either in the open or while spread out on a clean floor. This is known to be effective against common scab and black leg, and should therefore be employed in all cases. Whether it is equally effective against powdery scab is doubtful, and for this reason the use of sulphur is strongly advised in addition. The potatoes should be cut first and then dusted thoroughly with flowers of sulphur.

ON THE TRAIL.

"Do you see that man going along with his head in the air, sniffing with his nose?"

"Yes; I know him."

"I suppose he believes in taking in the good, pure ozone?"

"No; he's hunting for a motor garage. I believe!"—Kansas City Star.

A store that advertises must be a store of values—"bargains"—or the advertising would not pay.

PIANOS

When you think of a piano think of me. I sell and rent new pianos. The famous Baldwin make, including the Baldwin, Edlington, Hamilton and Howard.
